

## Our Philosophy

The National Federation of the Blind advances the lives of its members and all blind people in the United States. We know that blindness is not the characteristic that defines you or our future. Every day we raise the expectations of blind people, because low expectations create obstacles between blind people and our dreams. Our collective power, determination, and diversity achieve the aspirations of all blind people.

Live the life you want.

## Who We Are

The At-Large Chapter is one of several chapters of the National Federation of the Blind-Arkansas (NFBAR). This unique chapter spans the state of Arkansas, offering members an opportunity to engage remotely from all corners of our state.

The At-Large Chapter was established in 2015 by the late Joe Sexson. His mission still lives on by providing a place for blind Arkansans to connect.

## What we do

- Actively sponsor fund-raisers to help our chapter members with expenses in attending the national NFB conventions and Washington seminars.
- Support participation in community events to increase awareness of the NFB and the chapter's presence in Arkansas.
- Support national efforts such as the free white cane and free slate and stylus programs.

## Our Members

Come meet our strong and committed members. Read what some of them have to say about our chapter.

- “The At Large Chapter has given me unconditional acceptance and has helped me find the self-confidence to become more involved as a member in ways I never thought possible. The sky is the limit for our blind movement.”
- “The members are aware of resources for linking information concerning blindness awareness, tools, equipment, training. But on a deeper level, the members of the at large chapter offers understanding, hope, inspiration and healthier ways of coping with vision loss; a group that is knowledgeable and sincerely passionate about the needs of blind people.”
- “The chapter has enabled me to become more mission minded and nicely assertive in fighting for our rights for those with blindness. It allows me to network with other entities in our community and grow in my friendships.”
